

## Program at a glance

### ECRS 2022: Monday 26 September 2022

#### 8.00-10.00 Registration and light breakfast

##### 10.00-10.30 Welcome Remarks

10.00-10.05 Christoffer Johansen (DK)

10.05-10.15 Jesper Fisker (DK)

10.15-10.30 Charlotte Hammer/Marianne Nord-Hansen (DK)

##### 10.30-11.20 Session 1

10.30-10.55 Anssi Auvinen (FI) Prostate cancer screening: the knowns and unknowns

10.55-11.20 Mette Kalager (NO) Follow-up after cancer – does it work?

#### 11.20-11.35 Coffee break

##### 11.35-12.35 Session 2

11.35-12.05 Joachim Wiskeman (GE) Exercise as medicine in cancer survivorship

12.05-12.35 Ismail Gögenur (DK) Cancer surgery – how to improve recovery and survivorship

#### 12.35-13.30 Lunch

##### 13.30-14.45 Parallel session 3.A:

13.30-13.45 Work and education interruption following Hodgkin lymphoma diagnosis: an analysis among patients from nine EORTC-LYSA trials – *Sidsel J. Juul (DK)*

13.45-14.00 Short- and long-term impact of cancer on employment and financial outcomes of Adolescents and Young Adults: a Dutch registry study – *Silvie Janssen (NL)*

14.00-14.15 Real-life Experiences from a LateEffects Clinic in Denmark - *Lærke K. Tolstrup (DK)*

13.15-14.30 Health-related quality of life (HRQOL) in patients receiving municipal cancer rehabilitation – *Mette Thønnings Sandager (DK)*

14.30-14.45 Interventions for work participation of unemployed or work-disabled cancer survivors: a systematic review – *Fenna Van Ommen (NL)*

##### 13.30-14.45 Parallel session 3.B:

13.30-13.45 The Benefit of a Couple-based Intervention Among Women in Active Cancer Treatment on Sexual Concerns - *Jóna Ingibjörg Jónsdóttir (ICE)*

13.45-14.00 Sexual functioning in breast cancer survivors and the impact of treatment modalities – 12-year longitudinal data and female general population comparison - *Ragnhild Emilie Åsberg (NO)*

14.00-14.15 Social inequality in quality of life among cancer survivors and the influence of stage, treatment and comorbidity – *Anne Katrine Graudal Levinsen (DK)*

13.15-14.30 Intensive Smoking Cessation Intervention: Effectiveness in cancer survivors and non-cancer smokers – A cohort study - *Susanne Vahr Lauridsen (DK)*

14.30-14.45 Physical activity and all-cause mortality among long-term testicular cancer survivors: A longitudinal study - *Lene Thorsen (NO)*

**14.45-15.45 Session 4**

**14.45-15.15** Morten Høyer (DK) Does particle therapy result in less morbidity and better quality of life?

**15.15 -15.45** Karen Freund (US) Patient navigation through complex cancer care

**15.45-17.00 Poster session and drinks at the Danish Cancer Society**

**19.00- Dinner & Poster Award at Charlottetaven**

**ECRS 2022: Tuesday 27 September 2022**

**09.00-10.00 Session 5**

**09.00-09.30** Tine Tjørnhøj-Thomsen (DK) After cancer – rehabilitation perspectives

**09.30-10.00** Phyllis Butow (AU) Implementation of psychosocial findings in the clinic

**10.00-11.00 Session 6**

**10.00-10.30** Bobby Zachariae (DK) Digital interventions in cancer survivorship

**10.30-11.00** Andrew Wickers (US) PRO – hype or useful

**11.00-11.15 Coffee Break**

**11.15-12.15 Parallel session 7 A:**

**11.15-11.30** The gap between rare and common cancers still exists - Results from a population-based study in the Netherlands - *Eline de Heus (NL)*

**11.30-11.45** Fear of recurrence at two and a half years after a cancer diagnosis: a cross-sectional study in Denmark - *Linda Aagaard Rasmussen (DK)*

**11.45-12.00** Clinically important deterioration in Health-Related Quality of Life after stereotactic radiosurgery in patients with brain metastases - *Elaine A.C. Albers (NL)*

**12.00-12.15** Effect of 12-months testosterone replacement therapy on bone mineral density in testicular cancer survivors – results from a randomized double-blind trial – *Mikkel Bandak (DK)*

**11.15-12.15 Parallel session 7 B:**

**11.15-11.30** Patient-centered development of Embrace Pain: online Acceptance and Commitment Therapy intervention for cancer survivors with chronic painful chemotherapy-induced peripheral neuropathy - *Danielle van de Graaf (NL)*

**11.30-11.45** What Intervention Characteristics Are Associated With Higher Efficacy? A Meta-Analysis of Yoga, Psychosocial, and Mindfulness-Based Interventions for Cancer-Related Fatigue - *Alexander Haussmann (DE)*

**11.45-12.00** Effectiveness of internet-based cognitive rehabilitation for working cancer survivors: results of a multicenter randomized controlled trial (i-WORC) - *Kete M. Klaver (NL)*

**12.00-12.15** REBECCA: Randomized controlled trial on effect of nurse-navigation intervention in vulnerable breast cancer patients - *Pernille Bidstrup (DK)*

## 12.15-13.15 Lunch

### 13.15-14.15 Parallel session 8 A:

**13.15-13.30** Psychosocial determinants of lifestyle change after a cancer diagnosis: a systematic review of the literature - *Meeke Hoedjes (NL)*

**13.30-13.45** Using PRO to identify predictors of decreased survival probability for Bladder Cancer - *Stormoen Dag Rune (DK)*

**13.45-14.00** Risk Factors for Falls at a Major Tertiary National Cancer Center Inpatient Rehabilitation Unit - *Ekta Gupta (US)*

**14.00-14.15** Exercise in allogeneic bone marrow transplantation: a qualitative representation of the patient perspective - *Shaza Abo (AUS)*

### 13.15-14.15 Parallel session 8 B:

**13.15-13.30** Unequal experience of follow up care in Australian cancer survivors – *Michael Jefford (AUS)*

**13.30-13.45** Patients' experiences with general practitioner-led colon cancer survivorship care; a mixed-methods evaluation - *Julien A.M. Vos (NL)*

**13.45-14.00** Effect of a reduced follow-up schedule on patient satisfaction with care among endometrial cancer patients: the ENSURE randomized controlled trial - *Nicole P.M Ezendam (NL)*

**14.00-14.15** Specialist versus primary care prostate cancer follow-up: a process evaluation of a randomized controlled trial - *Barbara Margaretha Wollersheim (NL)*

## 14.15-14.45 Coffee Break

### 14.45 -16.00 Session 9

**14.45-15.15** Lonneke van der Poll-Franse (NL) Advancing personalized survivorship care with algorithms, AI and apps

**15.15-15.45** Morten Sodemann (DK) The fragile cancer patient

**15.45 -16.00** Christoffer Johansen (DK) Concluding remarks
